## **I. INTRODUCTION**

The State of Nevada AMBER Alert Plan is a voluntary, cooperative program between law enforcement and public safety agencies and radio, television and cable broadcasters, to use the Emergency Alert System, or EAS, and other resources, to provide timely information to the public when a child has been abducted and authorities believe the child is in grave danger. The goal of the program is the safe return of an abducted child.

### **A. OVERVIEW**

The State of Nevada AMBER Alert Plan is based on guidelines developed by the National Center for Missing and Exploited Children. Abduction cases must meet specific standards to qualify for an AMBER Alert activation. This plan sets down those standards.

The Nevada State Emergency Communications Plan provides procedures for activation of the Emergency Alert System when there is a threat to public safety. That guideline provides the basis for the use of the EAS in the AMBER Plan. Under this initiative, any law enforcement agency in the State of Nevada EAS Operational Area can request an AMBER Alert Activation in a child abduction case that meets the criteria in this plan.

Before participating in the AMBER Alert program, law enforcement and public safety agencies should be familiar with the Emergency Alert System Operational Area Plan for their area, and their own Emergency Operations Plan.

While the EAS is the primary source of information about the AMBER Alert, other resources from state and local government and private enterprise are incorporated into the State of Nevada AMBER Alert Plan. In addition to the resources listed in this plan, local users are encouraged to develop their own resources for using the AMBER Alert.

Not every abduction case will qualify for an AMBER Alert activation. The Nevada AMBER Alert plan will not be 100% successful. But the possibility of the safe return of just one child makes the plan worthwhile.

## **B. DEDICATION**

The Nevada Statewide AMBER Alert program is dedicated to the memory of Krystal Steadman. In 1999, Krystal was abducted from an apartment in Stateline, Nevada and murdered. Since her death, the Steadman family has worked to promote the safety of all children.

## **C. PURPOSE**

The purpose of the Nevada AMBER Alert Plan is to set up a formal means of exchanging information between allied law enforcement and public safety agencies, radio, television and cable broadcasters and state and private entities to facilitate the safe return of abducted children.

## **D. ADMINISTRATION**

The State of Nevada AMBER Alert Program shall be administered by the Nevada AMBER Alert Review Committee. The Review Committee shall be comprised of a representative selected by the State EAS Committee, a representative selected by the Nevada Broadcasters

Association and ten (10) representatives from state and/or local law enforcement agencies selected by the Governor. The Review Committee shall be responsible for supervising and evaluating training, monitoring and reviewing activations and conducting testing of the Plan.

## **E. DISCLAIMER OF LIABILITY**

The goal of the Nevada AMBER Alert Program is the safe return of abducted children. The program depends on volunteers for administration and supervision, and voluntary cooperation between law enforcement and public safety agencies, and broadcasters and other members of the private sector for activation. The activation of an AMBER Alert rests solely in the discretion of a law enforcement agency having jurisdiction for the child abduction. Nothing herein contained shall be construed as requiring activation of the AMBER Alert by a law enforcement agency nor infringing upon the discretion of a Broadcaster regarding the broadcast of an alert as provided by FCC Rules and Regulations.

## **II. NEVADA AMBER ALERT STANDARDS**

### **A. LAW ENFORCEMENT PARTICIPATION**

Only authorized law enforcement and public safety agencies that have agreed to the following guidelines may activate the Nevada AMBER Alert.

#### **1. PARTICIPATING AGENCY GUIDELINES**

- a. Participating law enforcement and public safety agencies must file an AMBER Alert Agreement Form with the State Children's Advocate with the Office of the Attorney General.
- b. Participating agencies must adopt their own written policy for AMBER Alert activations based on the Nevada State AMBER Alert Plan.
- c. Participating agencies shall provide necessary training, not less than on an annual basis, to all members of the department and dispatchers regarding the criteria for activation and proper utilization of the EAS Alert system.
- d. Participating agencies must maintain an updated list of AMBER Alert contacts with the Children's Advocate with the Office of Attorney General. The Children's Advocate shall distribute the contacts list to all participating agencies as updated.

#### **2. NEVADA AGENCIES**

- a. All law enforcement and public safety agencies in Nevada are invited and encouraged to participate in the State of Nevada AMBER Alert Program.

- b. Participating agencies must agree to follow the criteria listed in the State of Nevada AMBER Alert Program.
- c. Agencies are encouraged to request assistance with AMBER Alert activations from the State of Nevada Department of Public Safety.
- d. Training will be provided by the Nevada AMBER Alert Review Committee.

### **3. ALLIED EASTERN CALIFORNIA AGENCIES**

- a. Broadcast signals that carry EAS and AMBER Alert activations are not limited to political boundaries. As a result, Eastern California counties, east of the Sierra crest, which are covered by the State of Nevada EAS Operational Area Plan are considered part of the State of Nevada AMBER Alert Program.
- b. These agencies must agree to follow the procedures in the Nevada AMBER Alert Plan.
- c. These agencies must file an AMBER Alert Agreement Form with the Children's Advocate with the Office of the Attorney General.
- d. These agencies must notify the California Governor's Office of their participation in the Nevada AMBER Alert Program.
- e. These agencies must adopt their own written policy for AMBER Alert activations based on the Nevada State AMBER Alert Plan.
- f. Training will be available through the Nevada AMBER Alert Review Committee.

#### **4. NON-AGENCY ACTIVATION REQUESTS**

Requests for AMBER Alert activations from parents, private investigators or other non-authorized personnel shall be referred to the agency that would have jurisdiction for the child abduction, which agency shall have the authority, in its sole discretion, to activate an AMBER Alert.

#### **B. BROADCASTER PARTICIPATION**

- 1.** AMBER Alert activation requests must be made to the EAS Local Primary stations. LP stations are responsible for training their staff in AMBER Alert activation procedures.
- 2.** LP stations that receive AMBER Alert activation requests must broadcast them in a timely manner.
- 3.** EAS Participating Stations will rebroadcast AMBER Alert activations in accordance with EAS procedures.
- 4.** Program Control
  - a.** Broadcasters and cable television operators acceptance of/or participation in any EAS Operation Area covered by the Nevada AMBER Alert Plan does not affect program control and does not prohibit a licensee from exercising independent discretion and responsibility in any given situation.
  - b.** Broadcast stations and cable systems originating EAS emergency messages shall

be deemed to have conferred rebroadcast authority.

- c. The FCC Rules and Regulations provide the concept of management of each broadcast station and cable system to exercise discretion regarding the broadcast of emergency information and instructions to the general public.

- 5.** Participating stations that receive a request for an AMBER Alert activation should refer the request to the Local Primary station.

### **III. AMBER ALERT CRITERIA FOR ACTIVATION**

**NOTE:**

***ONLY AN AUTHORIZED LAW ENFORCEMENT OR  
PUBLIC SAFETY AGENCY MAY ACTIVATE  
THE NEVADA AMBER ALERT.***

#### **A. AMBER ACTIVATION STANDARDS**

There are four standards that must be met for a Nevada AMBER Alert activation.

##### **1. CONFIRMED ABDUCTION**

The law enforcement or public safety agency with jurisdiction over the abducted child will be the only agency to determine if the AMBER Alert should be activated. The activating agency shall conduct sufficient investigation to confirm the child has been abducted and other explanation for the child's disappearance has been eliminated.

Nevada Revised Statutes generally defines an abduction as: the unwilling removal of a child from their environment without permission from the child's legal guardian or a designated legal representative. Parental abductions and custodial disputes that do not present a physical threat to the child are not justification for an AMBER Alert activation.

##### **2. AGE/STATUS STANDARDS**

For the purposes of this program, a child is defined as a person under the age of 18.

### 3. THREAT

Investigators believe the circumstances of the abduction indicate that the child is in danger of serious physical harm or death.

### 4. INFORMATION

There is enough descriptive information about the child and the abductor or the abductor's vehicle to believe that an immediate public broadcast of that information may assist in the safe return of the child. An AMBER Alert should be activated within two hours of the initial report, unless extenuating circumstances exist for the activating agency to conclude the broadcast could be beneficial to the location efforts.

## **B. PARENTAL CONSENT**

The parents, parent, guardian or person having legal custody of the abducted child, if available, must sign a form agreeing to the AMBER Alert activation. The parents, parent, guardian or person having legal custody of the abducted child must also agree to the release of photographs, descriptions and other information necessary to the search effort to the broadcast media. Nothing herein contained shall prohibit a law enforcement agency from activating an AMBER Alert if a responsible party cannot be located in a reasonable period of time.

## C. REGIONAL ACTIVATION

Activating agency officials will determine the area of coverage for the activation.

Activations may cover a county, region, state or multiple states. Nevada is divided into three regions and two sub-regions of broadcast coverage:

### 1. Western Nevada/Eastern California

#### Nevada

Washoe  
Carson City  
Douglas  
Storey  
Lyon  
Mineral  
Pershing  
Churchill  
Interstate 80  
US 50  
Hwy 395

#### California

Lassen  
Plumas\*  
Sierra\*  
Nevada\*  
Placer\*  
El Dorado\*  
Alpine\*  
Mono  
Modoc including Surprise Valley

\* areas east of the Sierra  
Nevada crest

### 2. Southern Nevada/Inyo County, California

#### Nevada

Clark  
Esmeralda  
Lincoln  
Nye  
Interstate 15

#### California

Inyo (South of Independence)

### 3. Eastern Nevada

Elko  
Eureka  
Humboldt

Lander  
White Pine  
Interstate 80  
US 50  
Hwy 95

**4. Winnemucca sub-region**

Humboldt  
Pershing  
Interstate 80

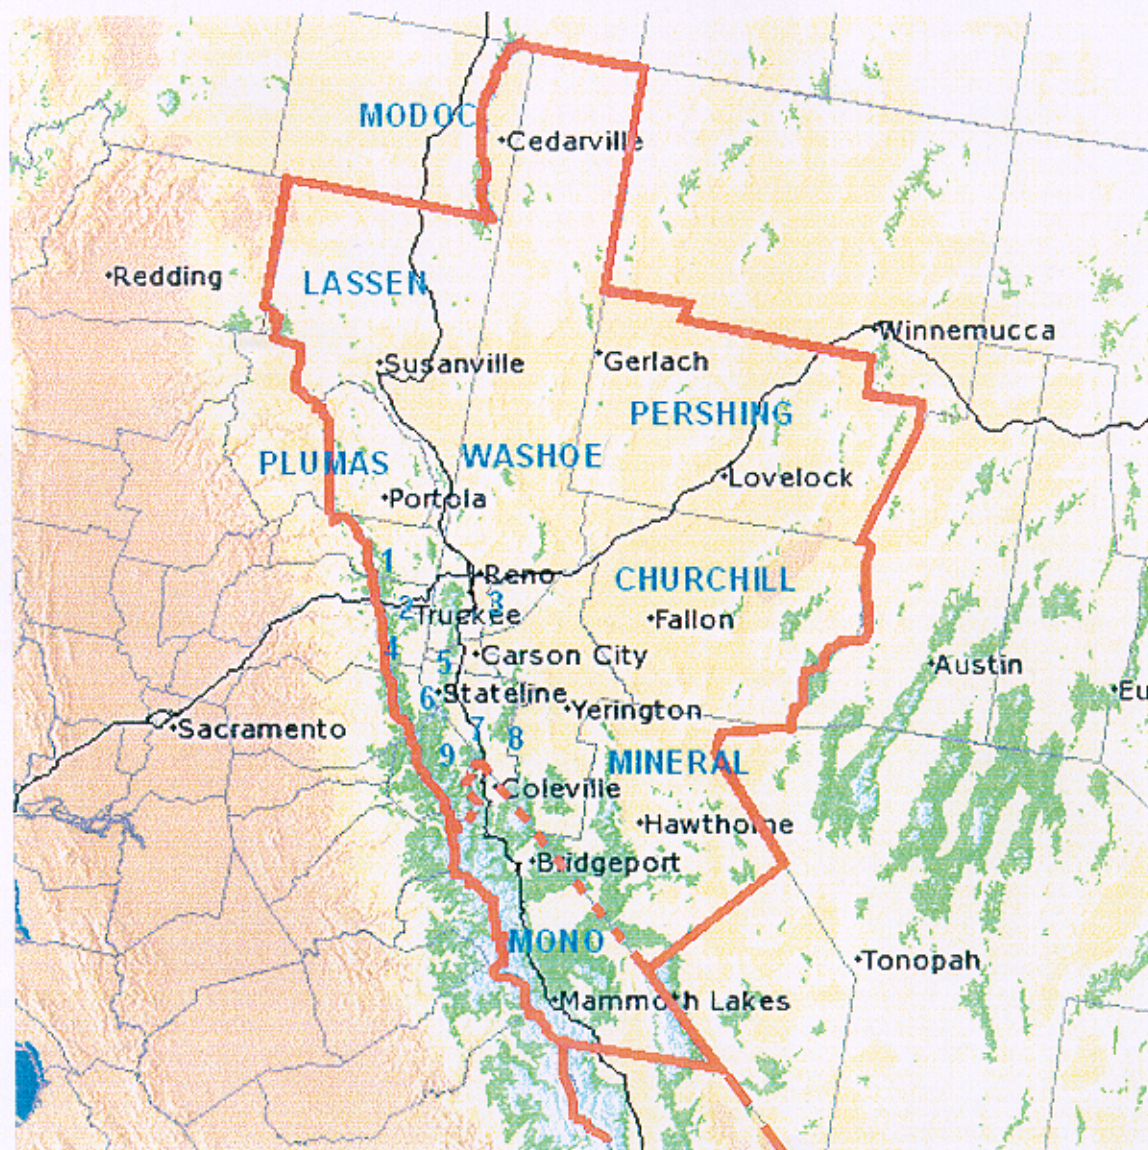

**5. Ely sub-region**

White Pine  
US 50

## Western Nevada/Eastern California Local EAS Area

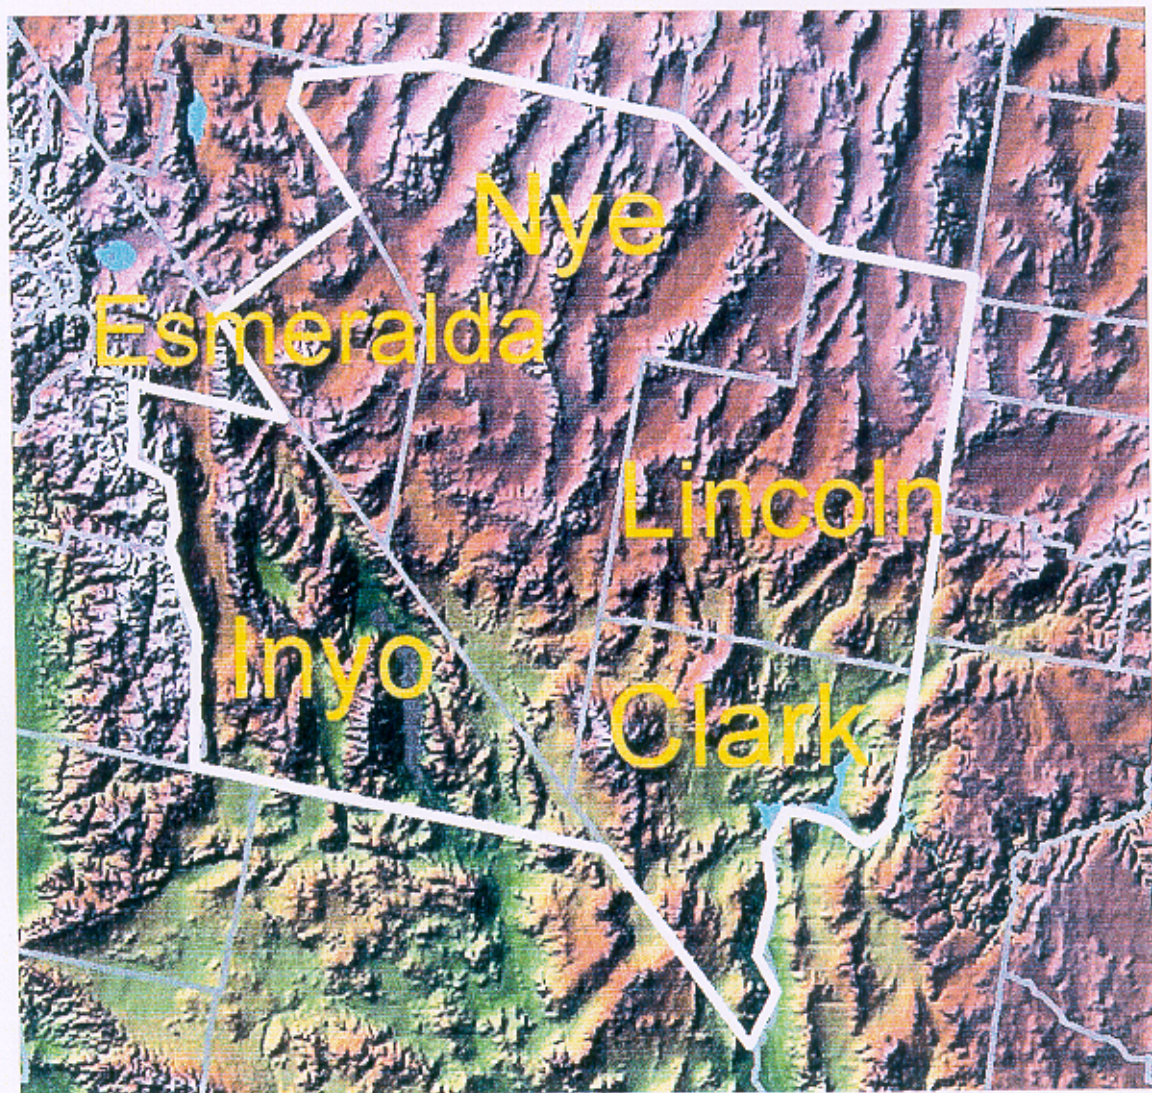

In Nevada, the Local Area includes: all of Washoe, Pershing, Churchill, Storey (3), Carson City (5), Douglas (7), Lyon (8) and Mineral counties. In eastern California, the area includes eastern Modoc (Surprise Valley), Lassen (except Lassen Volcanic National Park), eastern Plumas, eastern Sierra (1), eastern Nevada (2), eastern Placer (4), eastern El Dorado (6), eastern Alpine (9) and Mono counties. The Sierra Nevada crest is the western boundary of the local area from Mono County north to Lassen County. The boundary for Surprise Valley in eastern Modoc County is the 5000 foot elevation along the east slope of the Warner Mountains. Note that Mono County is also part of the Inyo/Mono Local EAS Area. This area is comprised of all of Mono and that part of Inyo County from Independence north to the Mono County Line.

## Southern Nevada Local EAS Area

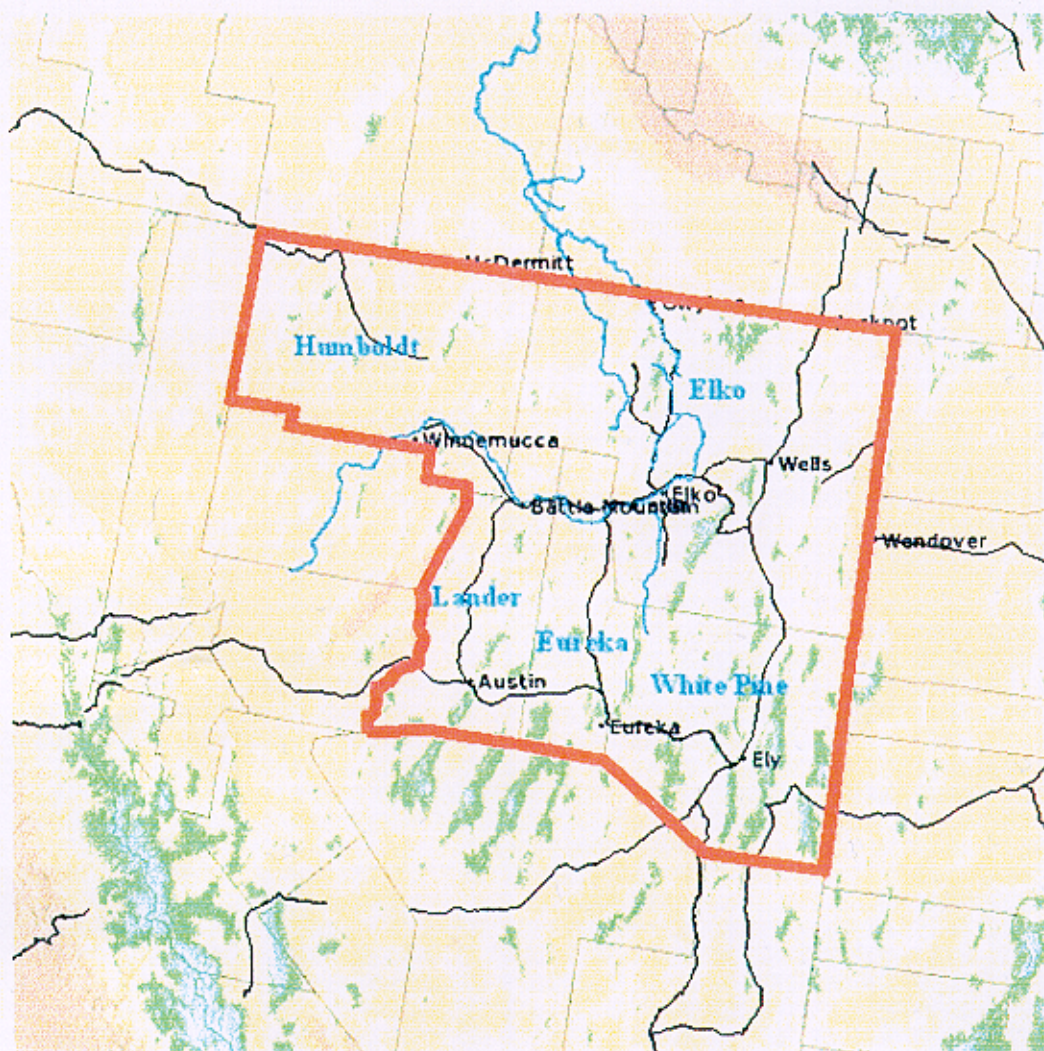

Included in this plan are all of Nye, Lincoln, Esmeralda, and Clark Counties in Nevada. It also includes Southern Inyo County California, including the town of Independence and areas to the south. Areas north of Independence are included in the Western Nevada/Eastern California EAS Operating Plan.

## Northern Nevada Local EAS Area

Included in this plan are all of Humboldt, Lander, Eureka, Elko and White Pine Counties.

## **C. STATEWIDE ACTIVATIONS**

- 1.** Activating agency officials should consider that the nature of the crime of child abduction can involve wide areas where the broadcast of information can be helpful in the safe return of an abducted child.
- 2.** Because no Nevada broadcast radio, television or cable operator provides statewide signal coverage, statewide AMBER Alert activations must be initiated by broadcasters in each of the state's three regions. The discretion for statewide AMBER Alert activations shall rest with the local activating agency. The activating agency shall notify the Nevada Department of Public Safety of the decision to activate the AMBER Alert on a statewide basis. DPS shall notify the appropriate LP's in the other EAS Operational Regions not notified as part of the regional activation by the local activating agency.
- 3.** Agencies may request AMBER Alert activations in other states directly, or through the Nevada Department of Public Safety. If requests are made directly to another state, the requesting agency immediately shall notify the Nevada Department of Public Safety that they have made an out of state activation request.

## **D. ACTIVATION REQUESTS FROM OUT-OF-STATE AGENCIES**

- 1.** Law enforcement and public safety agency officials from outside the State of Nevada that believe an abducted child may be in Nevada may request activation of the AMBER Alert in Nevada. Those requests may be made to the Nevada Department of Public Safety or to a specific agency.

- 2.** Any agency receiving a request for activating the Nevada AMBER Alert in their area directly from an out-of-state agency must complete the activation according to the Nevada AMBER Alert Plan and then inform the Nevada Department of Public Safety about the request and activation.
- 3.** Agencies that initiate the AMBER Alert for an out-of-state agency are responsible for following up the activation with information about the resolution of the case.

## IV. ACTIVATION PROCEDURES

**A.** Once the decision has been made to activate the AMBER Alert, the following procedures will be used.

1. The AMBER Alert designated contact person will call the pre-designated private telephone number for the appropriate EAS Local Primary station.
2. Identify yourself and your department.
3. Inform the station contact person that you want to activate the EAS for an AMBER Alert.
4. Give them the password, “ **ELVIS LIVES** ”.
5. This password will be verified by the station personnel.
6. Advise them IF you will be faxing an AMBER Alert form to be used in the activation, OR relaying the information over the phone.
7. Request that the information in the form be run three to four times an hour after the initial activation for the next two or three hours.
8. Explain that the agency has designated a Public Information Officer (PIO) who will contact the stations within 30 minutes. The PIO will provide any new information about the case. The PIO will also contact the stations about the conclusion or resolution of the activation.
9. Provide the station with a callback phone number to verify the information in the activation.

**B. AMBER Alert broadcaster contacts:**

**NOTE:**

*These are confidential numbers for emergency use only. Do not release these numbers to the public.*

**Date and Time Faxed:** \_\_\_\_\_

# PARENTAL CONSENT FORM

## NEVADA AMBER ALERT

### PARENTAL RELEASE

The undersigned parent/guardian/custodian of \_\_\_\_\_ hereby consents to authorize the release of information pertinent to the disappearance of the above-named child as deemed appropriate by the local law enforcement agency, including name, description, photographs and other identification information. The undersigned parent/guardian understands this information may be made available to the public, media, other law enforcement agencies, hospitals, social service agencies, shelters, medical examiners and/or other agencies or organizations involved with missing persons.

The undersigned parent/guardian/custodian acknowledges that activation and/or broadcast of an AMBER Alert through the Emergency Alert System rests in the sole discretion of law enforcement agencies and broadcasters. The undersigned parent/guardian/custodian hereby agrees to hold harmless any agency or broadcaster associated with or participating in the Nevada AMBER Alert Plan from any and all claims or liability arising from or associated with the activation of or a decision not to activate an AMBER Alert, including but not limited to any claim or liability associated with the accuracy and content of all information provided to the broadcasters or broadcast to the public.

## Broadcast Cancellation

The \_\_\_\_\_ (Sheriff's Office/Police Department)  
requests the AMBER ALERT be cancelled for \_\_\_\_\_  
(victim's name), \_\_\_\_\_ age.

Date and time of disappearance: \_\_\_\_\_

Initiating Agency: \_\_\_\_\_

Name and title of individual requesting cancellation:  
\_\_\_\_\_

Reason cancellation requested:

\_\_\_\_\_ Victim Located – Date & Time: \_\_\_\_\_

\_\_\_\_\_ Unable to locate victim; Investigation is still open. Public assistance  
is still needed; Anyone with information regarding the case is asked to call  
the \_\_\_\_\_ or 911/NHP.

\_\_\_\_\_ Other: \_\_\_\_\_  
\_\_\_\_\_

Contact Person: \_\_\_\_\_

Contact Phone: \_\_\_\_\_

Date faxed: \_\_\_\_\_ Time Faxed: \_\_\_\_\_

## **V. BROADCAST PROCEDURES**

### **A. LOCAL PRIMARY STATIONS**

1. The agency requesting the AMBER Alert activation will contact the Local Primary (LP) station and request the activation.
2. The activating agency will have the appropriate AMBER Alert information ready to record or send via fax.
3. The activating agency will provide a callback number for the LP station staff to verify the AMBER Alert.
4. The LP station will follow standard EAS activation procedures:
  - a. AMBER Alerts will use the “CEM” or “Civil Emergency Message” Code.
  - b. AMBER Alerts will be directed to all counties in the EAS Operational Area.
5. The activating agency will contact the LP stations and participating stations with the resolution/conclusion of the AMBER Alert.

### **B. PARTICIPATING STATIONS**

1. As with other EAS activations, participating stations can assume that the information received is authentic and qualified for rebroadcast, according to EAS procedures.
2. Broadcast stations with appropriate staff will repeat the information from the AMBER Alert every half-

hour for the first two hours and once an hour for the next three hours, unless the Alert is updated or canceled by the initiating agency. The EAS alert tones will NOT be used to repeat the information.

3. Television stations may use a “crawl” to visually present the AMBER Alert information once every half-hour for the first two hours, and once an hour for the next three hours, unless the Alert is updated or canceled by the initiating agency.
4. Broadcasters are encouraged to add the AMBER Alert information to their web sites, including any pictures made available by the initiating agency.
5. The Local Primary Station used to activate the AMBER Alert shall transmit an ADR (administrative message) upon notification that the alert has been cancelled.
6. Stations will immediately broadcast the cancellation or resolution of the AMBER Alert as soon as it is received. The EAS alert tones will NOT be used for cancellation messages.

**NOTE:**

***An EAS activation takes priority over any other broadcast and station activity in progress at the time of the activation.***

**C. CONTINUING COVERAGE**

Obviously each AMBER Alert case will be unique – some cases may be resolved within hours of the activation and other cases may remain open for a period of time. In extended situations involving days or weeks, individual stations have the authority to determine their level of participation and coverage of the AMBER Alert

information. Stations may decide to discontinue their coverage until new information is received.

## **VI. LOCAL AGENCY GUIDELINES**

### **A. LOCAL PLANS**

1. Each agency participating in the Nevada AMBER Alert program will produce a local AMBER Alert Plan.
2. Agency officials will submit a copy of the plan to the Statewide AMBER Alert Review Committee.

### **B. STAFF ROLES**

1. The agency plan will define which staff members are authorized to activate the AMBER Alert or give permission to activate the AMBER Alert. These staff members may include:
  - The on-call Detective supervisor
  - Incident commander
  - Detective commander or designee
  - Watch Commander
2. The agency plan will define procedures for AMBER Alert activations.

### **C. STAFF FUNCTIONS**

Law enforcement and public safety staff members have specific functions under the AMBER Alert Plan. These functions include, but are not limited to, the following:

## **1. COMMAND LEVEL STAFF**

- Will determine if the situation meets the criteria for an AMBER Alert activation
- Will determine current agency resources and the ability to respond to the demands of an abducted child emergency
- Will request assistance from allied agencies or the Nevada Department of Public Safety, if needed
- Will make the decision for an AMBER Alert activation
- Will supervise/carry out the AMBER Alert activation
- Will designate a Public Information Officer to respond to media requests
- Will determine whether to cancel the AMBER Alert and supervise appropriate activities
- Will debrief with personnel and allied agencies
- Will report details of the AMBER Alert activation to the State AMBER Alert Review Committee within thirty (30) days of the date of activation

## **2. PUBLIC INFORMATION OFFICER**

- Point of contact for all media
- Prepares/supervises media center
- Sets up interviews

- Provides media with photos, surveillance video, and any other information
- Provides media with updated information as soon as it is available
- Contact activating LP stations for alert cancellations

### **3. COMMUNICATIONS OPERATIONS**

- Point of contact for incoming calls
- Provides updated information for field operations, supervisors, other agencies
- Provides information for the Nevada Department of Public Safety, the Nevada Department of Transportation, and supporting agencies
- Directs media calls to the PIO

## **VII. SUPPORTING AGENCIES**

### **A. NEVADA DEPARTMENT OF PUBLIC SAFETY**

#### **1. Southern Command (Las Vegas)**

Communications Center-702.486.4100 Ext.6

Alert Coordinator: Georgene Turner  
702.486.4100 Ext. 276

**NOTE: Highway Road Signs are  
programmable directly by the NHP  
Southern Command.**

#### **2. Northern Command (Reno)**

Communications Center-775.688.2940

Alert Coordinator: Lt. Jackie Sangage  
702.688.2500

#### **3. Central Command (Elko)**

Communications Center-775.688.2940

Alert Coordinator: Cpt. Tom Johnson  
775.753.1122

## **B. NEVADA DEPARTMENT OF TRANSPORTATION**
